Cloud & services: AWS S3, Cloudinary, Razorpay, Nodemailer
Authentication: JWT, Role-Based Access Control (RBAC), API Validation, Webhook Verification
Ai: Google Gemini Api, Ai-Assisted Content Generation | **Tools:** Git, Github, Postman, Vs Code

PROFESSIONAL EXPERIENCE

SOFTWARE DEVELOPER | ESTA ENTERPRISES

Ernakulam, Kerala | May 2025 – Present

- Develop and maintain full-stack web applications across frontend and backend using **React.js, Next.js, Node.js, Express.js, and TypeScript**.
- Build responsive user interfaces and modular **REST APIs** for business applications and workflows.
- Design and optimize **MongoDB schemas, indexes, and database operations** for application performance.
- Implement **JWT authentication and role-based access control (RBAC)** across application modules.
- Integrate **AWS, Cloudinary, and FastAPI** services into production application workflows.
- Contribute to AI/ML-based application features in collaboration with the research team.

PROJECTS

MarryMitra – Matrimony Platform

React.js | Node.js | Express.js | MongoDB | Socket.IO | Razorpay | Cloudinary

- Built a full-stack matrimony platform with **JWT authentication, RBAC, matchmaking, profile recommendations, and real-time messaging**.
- Developed modular **REST APIs** with validation middleware and optimized MongoDB aggregation pipelines.
- Integrated **Razorpay subscription payments** with secure webhook verification and **Cloudinary** media management.
- Implemented real-time communication using Socket.IO, focusing on API performance, scalable architecture, and maintainable code.

eMithram Suite — Franchise & Service Management

React.js | Node.js | Express.js | MongoDB

- Developed scalable business applications for franchise, customer, staff, and service management.
- Implemented JWT authentication, RBAC, REST APIs, and optimized MongoDB database architecture.
- Built centralized admin dashboards for operational monitoring and workflow management.
- Implemented service tracking, status management, and structured business workflows.
